ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: SUBSTITUTION DERIVATIVES OF N⁶-BENZYLADENOSINE, METHODS OF THEIR PREPARATION, THEIR
USE FOR PREPARATION OF DRUGS, COSMETIC PREPARATIONS AND GROWTH REGULATORS, PHARMACEUTICAL
PREPARATIONS, COSMETIC PREPARATIONS AND GROWTH REGULATORS CONTAINING THESE COMPOUNDS

(57) Abstract: The invention concerns novel substitution derivatives of N⁶-benzyladenosine having anticancer, mitotic, immuno-
suppressive and antisenescent properties for plant, animal and human cells. This invention also relates to the methods of preparation
of these N⁶-benzyladenosine derivatives and their use as drugs, cosmetic preparations and growth regulators comprising these deriva-
tives as active compound and use of these derivatives for preparation of pharmaceutical compositions, in biotechnological processes,
in cosmetics and in agriculture.

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference	FOR FURTHER ACTION see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.	
International application No. PCT/CZ 03/00078	International filing date (day/month/year) 29/12/2003	(Earliest) Priority Date (day/month/year) 30/12/2002
Applicant USTAV EXPERIMENTALNI BOTANIKY AKADEMIE ...		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 9 sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☒ **Unity of invention is lacking** (see Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No.

☐ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

☒ None of the figures.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/CZ 03/00078

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1-14 (in part)

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where R1 is hydrogen, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto.

2. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is hydroxyl, alkoxy, acyloxy or carbylalkoxy, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto.

3. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is halogen, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

4. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is amino, hydrazo, nitro, amido, acylamino, alkylamino or dialkylamino, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

5. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is mercapto, methylmercapto or alkylmercapto, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

6. claims: 1-14 (in part)

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is carboxyl, cyano or carbamoyl alkyl, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

7. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is sulpho or sulphamido, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

8. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is cycloalkyl, substituted cycloalkyl or cycloalkylalkyl, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

9. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is substituted alkyl or arylalkyl, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

10. claims: 1-14 (in part)

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is heteroalkyl, heteroarylalkyl or cycloheteroalkyl alkyl, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

11. claims: 1-14 (in part)

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Substitution derivatives of N6-benzyladenosine of the general formula I of claim 1 where at least one of R1 is R1'-X with R1' and X as defined in claim 1, methods, pharmaceuticals, cosmetics, growth regulators and uses pertaining thereto inasfar as this subject does not fall within one of the earlier subjects.

☒ Further documents are listed in the continuation of box C.☒ Patent family members are listed in annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

"&" document member of the same patent family
